Dr Ian Radbone  
Chair, Bicycle Institute of South Australia  
GPO Box 792  
ADELAIDE SA 5001

Dear Dr Radbone

**Frome Bikeway and cycling safety in Elder Park**

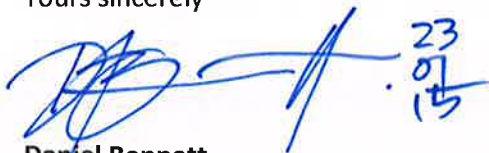

Thank you for your letter of 15 December 2014 and for your continued support regarding our objectives as outlined in Smart Move, Adelaide City Council's 10 year transport and movement strategy. I am responding on behalf of Peter Smith.

Firstly, with regards to your comments on the Frome Street Bikeway, Council has engaged an independent team to assess the performance and safety of the entirety of the bikeway from the southern Park Lands to Pirie Street. The assessment is expected to take place in the coming months, with completion aimed for May 2015. Planning on the Frome Street North and Frome Road bikeway sections have been put on hold until the independent evaluation is complete. There is also the complication and opportunity for Council to better understand the timing and impacts of the State Government's proposed O-Bahn City Access project, which will have an impact on Frome Street and the wider East End. Council will provide an update on the O-Bahn City Access project as part of our accompanying report to Council with the independent evaluation.

The independent evaluation will then be presented to Council following completion for their direction.

With regards to your second enquiry, we are not formally aware of slip issues in this area of Riverbank and we have commenced internal enquiries. We will write you to in regards to the slipping issue on Riverbank once more information is received.

Yours sincerely

**Daniel Bennett**  
PROGRAM MANAGER, CITY DESIGN & TRANSPORT
